

COMPANY OVERVIEW

Data Analytic Investments Kft. (DAI Kft.) is a Budapest-based investment research and market intelligence firm. We deliver institutional-grade analytics, quantitative research, and portfolio analytics across 200+ assets: cryptocurrency, equities, FX, and commodities.

FOUNDER BACKGROUND

30+ years of financial markets experience. Currency exchange operator since 1995, and in 2016 founded and co-owns iChange (currency exchange) and iCoin Network, which together with iChange was the first to offer BTC ATM service in Hungary.

Data Analytic Investments Kft. is the next step: a systematic, analytics-first research platform covering 200+ assets across crypto, equities, FX, and commodities.

MISSION

To provide institutional investors, family offices, and professional traders with the same quality of market intelligence previously available only to the largest financial institutions - delivered through a transparent, data-driven, and MiCA-compliant research platform.

PLATFORM CAPABILITIES

MARKET DATA & SIGNALS

Live coverage of 200+ assets. Quantitative signal framework with regime detection (bull/bear/neutral), momentum scoring, and volatility analytics. Market Risk Index updated hourly.

RESEARCH LIBRARY

47+ institutional research articles covering crypto market structure, macro analysis, regulatory developments (MiCA, SEC), and sector deep-dives. AI-assisted briefings generated continuously.

MACRO PULSE DASHBOARD

World Bank macroeconomic data, live FX rates, commodity benchmarks, and regime indicators. Data freshness timestamps on every panel.

INSTITUTIONAL HOLDINGS

13F SEC filings tracker and congressional trade data via QuiverQuant integration. Identifies institutional positioning and smart-money flows.

COMPLIANCE INFRASTRUCTURE

Uncle Sunny automated MiCA compliance screening on all published content. Compliance audit log with 4-hourly scheduled runs across 398+ content items.
